## READY SET LEARN PROGRAM

For the past 19 years, our free summer tutoring program has helped students across PEI with their reading, writing, and math skills.

This free program boosts literacy skills, confidence, and attitude towards learning through one-on-one tutoring sessions at local libraries. This year the Alliance helped 821 students on PEI with their literacy skills. Ninety-two were in Francophone programs, 215 in French Immersion programs, and 515 in English programs.

New this year, the program has expanded into the school year so students across our Island can access free tutoring all year.

## STAFF

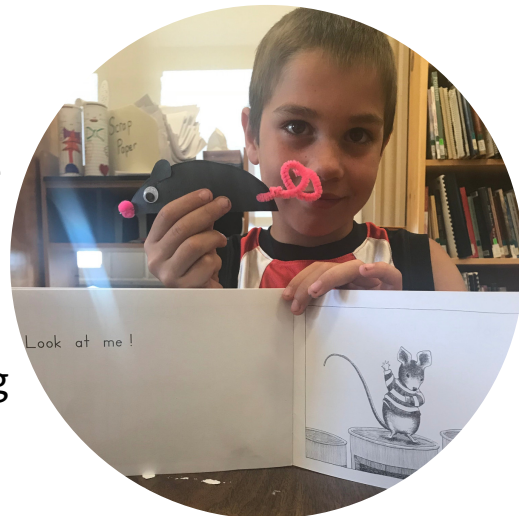

This year, the PEI Literacy Alliance was excited to have 26 tutors in 27 public libraries across PEI. Each tutor was responsible for maintaining a beneficial relationship with resource teachers, parents, and library staff.

Tutors were tasked with creating individual lesson plans for each student that catered to their individual learning needs. Each tutor came to us with their own vision, creative flare, and attentive demeanour. We couldn't have asked for a better group to help the PEI Literacy Alliance achieve its goals.

# SCHOOL-YEAR TUTORING

As a part of the Alliance's efforts to impact the Island, the RSL program is now available during the school year. Tutors worked out of four libraries in Georgetown, Charlottetown, Summerside, and Crapaud with 71 students from 8 schools, including PEIANC. Each student received about 15 hours of tutoring during the year.

Students enjoyed their after school tutoring sessions with one hundred percent of them saying then had fun every time they visited their tutor. One-hundred percent of parents said they appreciated the free help for their child.

## COORDINATOR'S REPORT

I am so excited to say our new program addition has boosted our impact across the province and has provided more students with free, fun, and engaging tutoring sessions. This was a big step for our program and we are thrilled to see the fun students are having with their tutors.

As coordinator of the RSL program for another year I was excited to see the impact it has on our students and parents.

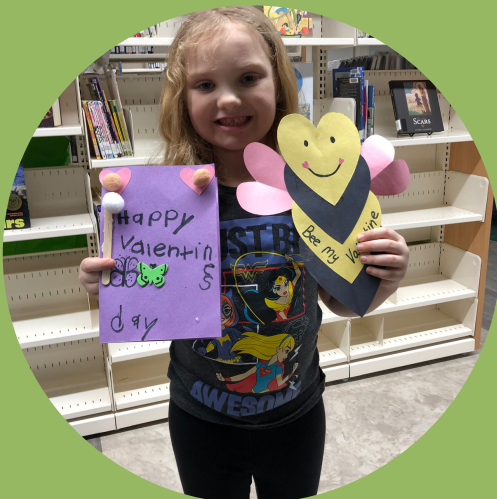

# SUCCESSSES AND TESTIMONIALS

"I learned I am smart" - Aiden, grade 2.

"I like to do math and I am good at it" - Ben, grade 3.

"I learned that I like the library and all of the books and computers." - Maddy, grade 1.

"We are so grateful for this program. Our son participated in the summer and school year and we saw such a difference in his attitude. Thank you!" - Parent, anonymous.
